

FAX.....

TO: ELISABETH KUBLER-ROSS  
FROM: RAM

Dear Elisabeth -

I had to hide the cake! There are too many chocolaholic predators around!

It was a wonderful meeting, and I really am getting it started. Attached is a news release that I put together this morning. If you will FAX back to me your OK, then we can get it into our latest newsletter, without the signatures, of course. If you have one coming up, you might want to do the same in your mailing or newsletter.

Meanwhile, if you will sign the copy and FAX it back to me, it will be step One. If you want to change anything, mark it on the copy your send back to me. At least we will know how much interest is waiting in our own groups.

See you again soon!

A handwritten signature consisting of two parts. The first part, "RAM", is written in a cursive style with a diagonal line through it. The second part, "Elisabeth Kubler-Ross (EKR)", is written in a larger, more formal script below the first.
